Deepwater NJ 08023

RE: Class 1 Modification of the Hazardous Waste Storage and Treatment Facilities Permit for DuPont Chambers Works, Carneys Point Township, Salem County, EPA ID No. NJD 002 385 730, Hazardous Waste Facility (HWF) Permit No. 1708C1HP04

Dear Ms. Angelo:

The Bureau of Hazardous Waste and Transfer Facilities (Bureau) has completed its review of the Class 1 modification notification for the referenced HWF permit dated June 10, 1999, and follow-up letter dated July 19, 1999. The modification served to amend the existing waste analysis plan for Chambers Works to give additional details concerning waste acceptance for fuel blending activities already authorized at the facility.

Be advised that the Bureau has added Condition 12(a)(23) to Section II of the permit and has modified Condition 12(b)(5) of Section II of the permit to account for the June 10, 1999, amendment to the waste analysis plan. In addition, the Bureau has taken this opportunity to (1) add Condition 12(a)(22) to Section II of the permit and modify Condition 12(b)(7) of Section II of the permit to reflect the revised closure plan dated December 3, 1998, which was submitted by DuPont Chambers Works pursuant to Condition 7(d) of Section III of the permit and (2) add waste number "D007" to Condition 2(b) of Section III of the permit which was inadvertently omitted at the time of permit renewal in 1998. Take note that this additional waste code does not authorize the acceptance of any additional wastestreams but merely reflects the characteristics of the existing waste handled at the Telomer A Facility currently authorized by the referenced permit.

The modified permit document is enclosed for your reference. Due to the addition of a "Summary of Permit Modification Actions" before Section I of the permit and the use of new word processing software by the Department, the total number of pages in the permit has been increased from 41 to 43 and parts of many permit conditions have shifted to different pages. Be advised that, if you have not already done so, DuPont Chamber Works is required to send a notice of the permit modification to all persons on the facility mailing list maintained by the Department, as well as appropriate units of State and local government, pursuant to 40 C.F.R. 270.42(a)(1)(ii). A copy of the mailing list is attached herewith for your use.

Should you have any questions regarding this matter, please contact Scot J. Frow of my staff at (609) 292-9880.

Very truly yours,

Anthony Fontana, Chief
Bureau of Hazardous Waste and Transfer Facilities
